

Low Carbon Hydrogen & Ammonia

ExxonMobil signs its largest CO₂ offtake agreement with Linde

Linde (NYSE: LIN) announced today that it has signed a long-term agreement with ExxonMobil (NYSE: XOM) for the off-take of carbon dioxide associated with Linde's new clean hydrogen production in Beaumont, Texas.

ExxonMobil awards FEED for world's largest low-carbon hydrogen facility

IRVING, Texas – ExxonMobil announced the next step in the development of the world's largest low-carbon hydrogen production facility with a contract award for front-end engineering and design (FEED). A final investment decision for the project is expected by 2024, subject to stakeholder support, regulatory permitting, and market conditions.

Carbon Capture & Storage

ExxonMobil, Mitsubishi Heavy Industries form carbon capture technology alliance

IRVING, Texas – ExxonMobil and Mitsubishi Heavy Industries (MHI) have joined forces to deploy MHI's leading CO₂ capture technology as part of ExxonMobil's end-to-end carbon capture and storage (CCS) solution for industrial customers.

Landmark emissions-reduction project in Louisiana announced; CF Industries, ExxonMobil, EnLink Midstream to collaborate

IRVING, Texas – CF Industries, a leading global manufacturer of hydrogen and nitrogen products, has entered into the largest-of-its-kind commercial agreement with ExxonMobil to capture and permanently store up to 2 million metric tons of CO₂ emissions annually from its manufacturing complex in Louisiana. Start-up for the project is scheduled for early 2025 and supports Louisiana's objective of net zero CO₂ emissions by 2050.
